

What is Claimed Is:

1. A decorative urn which comprises:
 - a) a base section having a top surface, said base section having a cavity
5 for receiving a receptacle therein;
 - b) a housing having a fluid reservoir therein;
 - c) engaging means for removably supporting the housing on the top
surface of the base section;
 - d) a centrally-located port formed in said housing, said port
10 communicating with the fluid reservoir;
 - e) a wick assembly removably located in said port and communicating
with the fluid reservoir, said assembly adapted to receive a wick therein
for drawing fuel from the reservoir and sustaining a lighted flame.
2. The decorative urn of claim 1 wherein said housing is formed of light-
15 transmissive material.
3. The decorative urn of claim 2 further comprising a lid for affixation to the base
section, said lid being dimensioned to overlie the cavity.
4. The decorative urn of claim 3 further comprising an opaque shield bounding
said cavity.
- 20 5. The decorative urn of claim 4 further comprising a receptacle dimensioned to
be received in said cavity.
